Free Press: W. P. Anderson, chief engineer of the marine department, is en route to Winnipeg to make an hydrographic inspection of Lake Winnipeg and a survey of the steamboat routes of that lake.

An eight round glove contest between Edward Cuff, of San Francisco, champion middleweight of the coast, and John Allan, took place in Robertson's hall on Saturday evening. The contestants were evenly matched and displayed much of what is termed the science of boxing.

THERE was no voting on the school by-law on Saturday owing to some legal formality that was not complied with through misunderstanding. Mayor McCauley, as chairman of the Board, is the returning officer and is supposed to be present to open the poll. He appointed a deputy and it appears that the deputy cannot open the poll. The mayor was out of town and did not return before ten o'clock; thus the poll could not be opened legally. The school board meet to-day to decide on a date to take the poll.

Mr. P. R. Carson of Toronto, who is at present registered at the Alberta, on his return trip from the coast, says that there is a good deal of excitement in Victoria B. C. relative to the British Pacific R. R. which ultimately expects to tap the fertile valley of the Saskatchewan. At present, Victoria has no railway connection with the mainland and is cut off by Vancouver. This new line would not only make Vancouver and Victoria two competing cities on the same footing with each other; but it would give the farmers of the Saskatchewan two competing points for their produce. Victoria being a nearer market is the natural outlet through the Yellowhead pass, for the products of this rich district, in tapping which, Victoria would be a great gainer, inasmuch as it would be tributary to a much richer district in natural products than Vancouver is at present. The benefit to this district would be two competing markets, two competing railroads.

THE Rev. Father Lacombe, who some forty-seven years ago landed at Edmonton a young missionary and who has since been practically all over the Northwest, is now again sent back to his first post. The Rev. Father was at the time of the B. C. floods attending a congress of the Indians of the Pacific Province. He speaks very highly of the state of civilization to which they have attained. He was particularly struck with the efforts made by the C. P. R. to look after the comforts of all their passengers during the time of the obstruction. Where transfers had to be made the employees did everything in their power to assist women and children over the rough places and in the dining cars and dining stations the poorest as well as the richest were supplied with the best table afforded free of cost. Although the Rev. Father has not been a resident of Calgary for some time, still Calgarians of all creeds and denominations will join in wishing him every prosperity and happiness in any field in which he is called to labor.—Calgary Tribune.

MR. JAMES GREY, a settler from Georgia U. S. who left the state of Oregon for the south in anticipation of finding a better country, arrived on Monday's train and thinks he has found the "promised land" in Alberta. He stated at Lacombe on his way up here and reports having seen the best barley and oats he ever saw in his life there, for in E. Oregon they can grow neither, grass being out of the question except in the Palouse district where a course timothy is found. He says the wheat crop in E. Oregon never had better prospects than it had five weeks ago, and will likely be the biggest yield they have had for years, probably 40 and 50 bushels to the acre; but owing to wretched railway facilities it will be after Christmas before it can be got out. He says it is a common thing to see fifty thousand bushels of wheat stacked up alongside the railroad at stations waiting to be shipped. This stays out in rain or snow until the railway company can move it. Lumber is too expensive and not to be had to cover it with. Fortunately only the bottom sacks are usually spoiled; but the farmers lose a great deal, some seasons, by wet and snow. Mr. Grey has been looking at the country around St. Albert, the Sturgeon and other places since his arrival.

THERE is every possibility that the sandstone found on the Saskatchewan about fifty miles west of the town will be utilized for building purposes before long. Messrs. Degagne and Lamoureux, who have located the claim, brought a large load down recently and two more are on the way. All of it has been sold and there is a great demand for more. This stone will be used for the foundation of the R. C. manse to be erected on Victoria street, and the town council have mentioned its discovery to the Public Works department at Ottawa, so that it may be used in building the piers of the new bridge. The sandstone is said to be easily worked. The claim extends three-quarters of a mile in length and is from 18 to 20 feet in depth. Being close to the river the stone can be easily hewn out and brought to town in about the lengths required, where it will be dressed according to the shapes ordered. Two barges, each capable of carrying 17280 pounds each can be loaded and brought to town in 24 hours, and it is proposed to have a great deal brought down before navigation closes to be on hand for building purposes next year if not used this fall. Another valuable feature of the claim is the fact that the rock lies on a sort of mineral sandstone that will make good cement. A kiln and cupola will be built for its reduction as soon as capital permits. Mr. Degagne leaves this week to superintend operations.

TRAIN fifteen minutes late.

Two hundred live blackbirds are wanted by the secretary of the Rod and Gun Club.

Geo. K. LEESON, of Calgary, was in town to witness the race between Allan and Moosworth.

LIEUT.-COL. Anderson, of the Dominion rifle league, Ottawa, attended the regular practice of the rifle association on Saturday evening.

As an instance of how the town and district is advertised far and near by the local newspapers, we may mention that a full report of the Edmonton woolgrowers meeting at Edmonton, credited to the BULLETIN appeared in the last issue of the Journal of Fabrics received by the Secretary of the Woolgrowers association.

An exploring party, consisting of E. M. Caldwell, John McLaren and Jas. A. Larkins of Seattle, Washington Territory, registered at the Columbia on Thursday. They brought with them dogs and guns and will combine hunting with their explorations. They may possibly take up land and settle here. Saturday morning they went prospecting up the river.

NORTHWEST ASSEMBLY.

MONDAY, August 6th.

Haultain in reply to Jelly's question said that Dr. Stewart of Duck lake had been appointed Northwest immigration agent at Toronto last spring. He was employed for 100 days and the expenditure in connection with his services had been \$1,145.41.

The following are the standing committees for the session:

Public accounts and printing—Magrath, Davidson, Betts, Neff, Clinksill, Mitchell, Oliver, Jelly, Insinger, Wilkins, Clementson.

Education—Tweed, Oliver, McKay, Mitchell, Prince, Mowat, Haultain, Betts, Page, Boucher.

Agriculture—Lineham, McKay, Boucher, Knowlton, Jelly, Page, Dill, Wilkins, Clementson, Sutherland, Insinger, Myers, Neff.

Municipal—Davidson, Sutherland, Clementson, Dill, Mowat, Betts, Oliver, Lineham, Magrath.

Civil justice—Cayley, Prince, Haultain, Clinksill, Mowat, Betts, Page, Insinger.

Standing orders—Haultain, Cayley, Sutherland, Knowlton, Myers, Brett, Dill.

Library—Mr. Speaker, Oliver, Cayley, Prince, Tweed, Magrath, Brett.

Haultain's bill consolidating the municipal ordinance was read a second time and referred to the municipal committee for consideration and such amendments might be deemed advisable.

Petitions were presented by Lineham regarding irrigation, Haultain respecting the worrying of stock by dogs, Insinger asking for gopher poison.

TUESDAY, August 7th.

Haultain laid on the table the correspondence between the executive committee and the Dominion government regarding the vote of a subsidy by the federal parliament to the Territories, and respecting amendments to the Northwest act.

Oliver presented petitions from the Royal Templars of Lehighbridge, Medicine Hat and Edmonton and from the Baptist churches of Medicine Hat and Edmonton, asking for prohibition of the liquor traffic.

Jelly presented a petition from F. B. Stacy and others of Moose Jaw asking for prohibition of the liquor traffic.

Dill moved for a return showing the amount paid to schools during the quarter ending June 30th, 1894.

1. On the basis grants.
2. On the attendance grants.
3. On the above Standard III grants.

A comparative return showing the salary paid to each teacher; the amount of grant and under what basis it was paid (1) In all schools employing more than one teacher in the Territories; (2) In all schools in the Souris and Wolseley districts.

In speaking to the motion he said it had been alleged against the present system of payment of grants that it gave an advantage to the town schools and was unjust to the country schools. He believed that if the return asked for showed that such injustice had been done, the assembly would speedily right the wrong.

Mowat asked that a request for certain additional information be included which was done.

Messrs Betts, Oliver, Neff, Knowlton and Haultain were appointed a committee to draft a reply to the lieutenant governor at the opening of the session.

Jelly moved a committee consisting of Mr. Speaker and Messrs Haultain, Davidson, Sutherland, Mowat and the mover to enquire into the condition of agriculture in the Territories.

Oliver introduced a bill to provide for the taxation of land in the Territories.

Neff introduced a bill to amend the exemption ordinance as to allow an exemption of six cows.

Haultain's bill amending the law respecting chattel mortgages so as to require renewal by registration at the end of two years instead of one year as at present was read a second time.

Haultain's bill to amend the brand ordinance by abolishing the brand committee was read a second time.

Reports indicate the presence of frost in several Nebraska counties yesterday morning. The localities are mainly those in which the drought was so severe and little vegetation was left to be damaged. Dodge county suffered chiefly.

Manitoba is all right, judging from the vital statistics for the past six months. Its record is 454 deaths, 689 marriages, and 3,066 births. The cradles are bringing more immigration to the West than the railways.

"Never get tired of journalism," said Sir Edwin Arnold the other day to a press man, "for it is the cleanest profession of all." During the last thirty years Sir Edwin himself has written probably more than 10,000 leading articles.

Free Press: Prof. Macoun, of the geological survey, who returned a few days ago to Ottawa from field explorations in the vicinity of Alberta, has had a brief but unusually successful season of explorations. He was absent scarcely seven weeks, and during that time collected over 1,000 eggs of more than fifty varieties, about 300 bird skins, a varied selection of reptiles and a great number of small mammals.

Arrangements for the trip of the Press Association to Fort Francis are completed. The party leaves Winnipeg on Saturday, August 11th, at 2 o'clock p. m. A large attendance of both ladies and gentlemen is expected. The trip will take about a week.

Mr. C. C. McCaul has forwarded from Calgary to Ottawa, through Mr. Pearce, of the geological department, three specimens of gold bearing rock, which was discovered this summer on the upper waters of the Old Man's river, about two miles from the upper Walrond ranch. The rock, which is a kind of rotten quartz which outcrops in a hogs back which runs through a valley known as Poverty Flat. It was discovered by a cowboy named Guitard, who dismounted to milk a cow which had lost her calf, and noticed a specimen of the rock at his feet. He immediately staked out a miner's claim and within the last two weeks about 12 miles of the valley has been staked out. The rock is supposed to run about \$4 to the ton.

THE FAR NORTH.

Rev. J. C. Stringer, a missionary laboring among the Eskimo at the mouth of the McKenzie river in the land of the midnight sun has written some interesting letter to Bishop Reeve of the diocese of MacKenzie River.

The letters abound in long trips by sledge and canoe, in danger from storm, cracking ice and polar bears, and all the unpleasantness of living among uncleanliness and vermin. He describes their wild orgies, called medicine dances, and his efforts to break them up, and shows that much progress has been made in reaching the hearts of these poor and doubly benighted savages. It is impossible to give even a faint idea of the work Mr. Stringer is carrying on, a few extracts only can be inserted. At one of the stations he says: They have a good sized roughly built, log building, which is used as a council chamber, and for other public purposes. In this he held service almost every day. He says: "At first sight it was an uncertain thing and interruptions might occur at any moment; but before I left we used to have quiet orderly services—singing, reading and prayer—and sometimes they were hearty. One day, in the midst of the service, the head of a whale was brought in for all to eat. Some wished to begin at it then and there, but at the word of the chief all refrained. As soon as the last prayer was said and I told them "taima" (that will do), a rush was made for it, and it soon disappeared. A choice piece was given to me to cook and eat. The others omitted the cooking. I learned to like fresh whale whilst there and ate a good deal."

On another occasion when a number were off hunting, unable to get the others to attend service, and discouraged and disappointed with the day's proceedings, he was just about to retire to rest when a message came to say that he was wanted at the council house. He went, "wondering what was wrong, and was surprised to see nearly all the men sitting there quietly. Their hunt had been quite unsuccessful."

They said they wanted me to teach them to sing like the thillies (Indians). So I sat down and we sang and read and prayed for about two hours. They were very attentive, and we had a most profitable time.

"Hunting the grampus is their chief occupation in summer, and last season 155 were killed. After a day's hunt, all would meet in the council house and the exploits and adventures of the day would be related with great animation and considerable eloquence. Some of them had said that they would not hunt on Sundays; but one day when Mr. Stringer was in a tent visiting a sick person, a cry was raised that whales were in sight, and when he came out of the tent all the men were off in their kayaks.

Amongst other purposes the council house was used for dancing. On the night after his arrival, as he was sitting there, a dance commenced, which is best described in his own words: "I watched them for a while, and before I knew it they had turned it into a medicine making performance. So I thought I would see it through. It became wild. Had it not been that the ones who took part were those who were friendly to me I think I should have been nervous, or in other words scared. When you see a big knife brandished in close proximity to you, and the brandisher going through all sorts of contortions and mimicry, such as few lunatics would be guilty of, you begin to wonder what is going to happen next; at least I did, and several times would have been glad to be out of there, but I thought if I left they would think I was scared, and that would never do, so I saw it to the finish. I think several of them were possessed. Otherwise I don't know how they could have gone through the performance as they did. Perhaps it was just as well that I witnessed it once, but I don't think I shall again."

The second visit was to Herschel island, and was undertaken at the beginning of winter. Taking a train of dogs, sled, provisions and everything necessary for a journey over the snow, and accompanied by an Indian, he left the mission on Oct. 27th, and reached the island after fourteen days' travelling. It was a trying journey. A dense fog compelled them to hug the shore, and thus increase the distance. The sudden breaking off from the shore of a large sheet of ice nearly caused their being carried out to sea, and endangered their lives. They also narrowly escaped a visit, during the night, from a large polar bear, which was looking out for winter quarters, and perhaps for a supper too. They fell in with a party of Eskimos and stayed with them a day. They seemed to be utterly ignorant of the gospel. He had there his first experience of living in a snow house, and had one of his own. "The first," he says, "I ever owned." About fifteen miles from the island they came across another party, whom they were glad to meet, as their provisions had run out. They were all strangers to Mr. Stringer and many of them had never before seen a missionary. He says, "I had seen some of their relations last summer and they plied me with questions about them, for they had not heard of them since last winter. In most cases I was able to tell them some news of their distant friends, and I could scarcely get away from them. But I promised to come back in a few days, and at last broke away and made for the ships. I was sorry to hear of the death of Oobook, the Eskimo whom I accompanied to the fort last spring. He died the night before I arrived. A number of Eskimos were living near the ships I visited those as much as possible, and taught them what I could. I made two trips to the village on the mainland, staying over night each time, and was much pleased with their eagerness to learn. They used to gather in the largest house, and were very attentive as I read them the Gospel. Their houses were the half-underground ones, built partly of poles, and covered with snow. In the house where I stopped, there were about twenty people living. The building was about six feet high in the centre, sloped to the sides, and would have a floor area of about fifteen feet. I was kept busy while there holding little services with them, and trying to answer all the questions they asked. One man said he had killed another a long time ago, and eagerly enquired if there was a chance of his going to heaven. A woman wanted to know if they used tobacco in heaven. Some of them had been at Peel River some time ago, and Archdeacon McDonald of Bishop Bonness had given them some instruction, but most of them were from farther west, and had never been to the fort. And to think of these poor people

living and dying without the opportunity of hearing the blessed Gospel! It was little that I could do in such a short time, and with my limited knowledge of the language. But it was a beginning, and surely it was a privilege to bring the good news to them, if only in an imperfect and limited way. They were as kind as could be, and wanted me to stay all winter. Then they wanted me to come back and stay all next winter, and said they would hunt for me and get me a supply of meat. The whalers too, were very kind and entertained him right hospitably, and when he left, after a short stay of about a fortnight, laden him with such things as were necessary for the journey."

The Athabasca is in port at the Landing. A meeting of the school board will be held this afternoon.

R. SECORD and Mr. Cummings are expected in from Fort Chipewyan with their furs on or about the 15th.

The sale of Connor's furniture stock took place on Tuesday afternoon when nearly all the stock was sold for good prices.

Miners at Victoria, prior to the recent rise in the river are reported to be making \$5 a day at the gold diggings.

DR. SELWYN's oil exploring party have not begun boring yet. The Dr. expects to leave the Landing on the 17th and will be here on the 20th.

While wrestling with Fred Robertson, Mr. Cully twisted his ankle in falling. It broke, and medical assistance had to be called in to re-set it. He is progressing favorably.

A Dutchman from South Edmonton struck a rich up the river this spring and has already deposited \$1400 worth of gold amalgam, got by the primitive method of washing.

Of twenty-six settlers who left Calgary by Monday's train, twenty came through to Edmonton. Sixteen were from the United States, five from Scotland and five from the eastern provinces.

The financial statement of the Edmonton Methodist church has been made public. It shows that last year \$1000 was raised leaving a deficit of \$200. This year \$1800 will have to be raised to pay outstanding debts and running expenses.

The bishop of the diocese of Calgary has formed the northern part of the diocese, from township 37, into a deanery to be known as the Edmonton deanery, and has appointed Rev. Alfred Stundin, B. A., rector of All Saints, Edmonton, the first rural dean for the deanery.

The Winnipeg Nor'Wester, speaking of Dr. Selwyn's visit to Athabasca Landing says, that should the borings prove successful, and the flow is of such quality to warrant its utilization, a syndicate of eastern capitalists will immediately commence the development of the wells.

The Commercial has issued a panoramic supplement to its regular edition which takes first place among illustrated numbers of the Northwest. The reference to Edmonton is short; but complementary where the illustrations are ancient and very descriptive of the backyards along the embankment.

REV. G. W. DEAN will attend the Methodist conference to be held in London, Ont., this year. He starts next week and had intended to take a week's rest in Calgary on his way down, which he finds he cannot conveniently do. He will preach next Sunday. During his absence the pulpit will be filled by district clergymen.

A LETTER to the Electric railway promoters has been received from the Canadian General Electric Co. Ltd., in which it is said that owing to great reductions having been made in the price of electrical appliances and supplies, the proposed railway could now be built at a much less expense than if it had been built last year. The Electric Co. desires to give a new estimate of cost.

Mr. R. L. HAMILTON of the C. P. R. land department has signified the willingness of the C. P. R. to place at the disposal of the town, a car for exhibition purposes in the east. If the grains and grasses are collected free transportation will be given to delegates sent with the car, or if delegates are not sent, the C. P. R. will provide suitable persons to accompany the exhibit. Legislative assistance for securing the desired exhibit will probably be asked.

The citizen's band will give an open air concert in the band stand in front of the town this evening when the following programme will be rendered:

March, "The Panjab," C. Payne.
Waltz, "Night Dreams," Rollinson.
March, "La Pied a cheval," Painfare.
Waltz, "La belle Villageoise," Kessels.
March, "Les refrain des Vosgiens," Mullot.
March, "The British Grenadiers," Mullot.
God Save the Queen.

The Bar associations of the Territories are drafting a new ordinance to be submitted to the N. W. assembly at the present session. The chief alterations aimed at in this proposed ordinance respecting the legal profession is the establishment of a convocation of benchers which shall consist of ten barristers, five from the eastern and five from the western division, and meet twice a year with power to make laws for the admission to and regulation of the bar, the examination of students, the establishment of law libraries at various points in the Territories, such as Calgary, Edmonton, Regina, Moosomin and Prince Albert, and to determine the status of the corporation generally. The names of barristers and solicitors are to replace that of advocate, and the fees for the new titles are to be \$160 and \$100 respectively.

The foot race for 440 yards between the Indian Mooswah, and Allan of Toronto, last Saturday, was the event of the week. It was witnessed by over fifteen hundred people. The grand stand was crowded. Boys clung to the posts, water carts, baker's wagons, drays, busses, and vehicles of all descriptions covered the ground within a radius of the judge's stand, and line upon line of eager faces thronged the track near the tape line. The weather was beautiful, the track in excellent condition and both men eager for the fray. P. McNamara acted as starter and Dr. Baldwin as judge. Both men were in trim at 4.30. Allan won the toss (and took the inside position. On the pistol shot being fired both men started together with Allan a little in the lead. At 220 yards they were about even, the Indian putting on more speed; but he could not pass his opponent. At three hundred yards after a plucky effort, it was clearly the white man's race, and from there to the winning post there was no doubt as to the ultimate victor. Allan won 51.4/5 seconds with Mooswah about 5 yards in the rear. The fastest record in the world is 47.4/5 so that the race on Saturday was one seldom seen in this northern country. No dispute, no explanations, or quarrels occurred. Both men tried their best and the fastest man won. Considerable betting took place on the track and a few thousands changed hands. The people left the track reluctantly, talking over the recent event and eyeing the competitors. Allan beat Brunette of Pincher Creek at Calgary and beat Williams at Regina. He is an allround athletic and wrestled Johnston and Frank Goslin, both professionals, at Brandon.

RASPBERRIES are coming in freely at \$1.50 per pair.

A MEETING of the Electric light Co. will be held to-morrow night.

THE coil oil explorations, the recent gold discoveries and the assurance that the bridge across the Saskatchewan will be proceeded with at once, together with reported good crops, has helped to swell that unbounded confidence that the people of Edmonton have in the town and the mineral and agricultural wealth surrounding it. Among the new buildings in course of erection are, Mr. Manson's brick seven roomed dwelling on Rice St. 16x24 with an addition 12x12, Mr. Mountpetit's cottage on Nemayo Ave. 20x22 with addition 12x12, Pete Anderson's residence on 7th St. 16x23 and kitchen addition and Acton's residence on 5th St. 18x22. Mr. Graham's and Mr. Belcher's residences on 3rd St. are now ready for occupation. The brickwork of the new BULLETIN block is finished and the cornice put up last week. Brown & Curry's store will soon be ready for business and Mr. Secord's office and fur warehouse will be ready for occupation on his arrival from the north. More new buildings are spoken of. The foundation for a three story brick manse in connection with the R. C. Mission will be laid on the north side of Victoria Ave. within a few weeks and a new brick church will be built next spring.

COMMUNICATIONS.

EDMONTON, Aug. 8th, 1894.

To the Editor of the Bulletin:
SIR,—I am pleased to see by your last issue that the Edmonton District Rod and Gun Club is taking a step in the right direction in trying to stop the extermination of the prairie chicken. It is high time we were doing something to protect our feathered game, and it is to be hoped every sportsman will support the club and protest against the wholesale slaughter which annually takes place early in the season. It is neither manly nor sportsmanlike to kill thirty or forty brace of birds when they are so tame that you might almost knock them over with your hat; besides at that time of the year birds will not keep and in many cases have to be thrown away as unfit for use. By the 15th Sept. birds are strong on the wing and by extending the close season to that date there will at least be less fear of the prairie chickens becoming like the buffalo—a thing of the past.

Yours, etc.,

HOMESTEAD REGULATIONS.

All even numbered sections excepting 8 and 26 are open for homestead entry (160 acres) by any person sole head of a family, or any male over the age of 18 years.

ENTRY.

Entry may be made personally at the local land office for the district in which the land to be taken is situated or if the homesteader desires he may, on application to the Minister of the Interior, Ottawa, or the Commissioner of Dominion Lands, Winnipeg, receive authority for some one to be named by the intending settler near the local office to make the entry for him. Entry fee \$10, or if cancelled land \$20.

DUTIES.

Under the present law homestead duties may be performed in three ways, to be decided on making entry:—
Three years' cultivation and residence, during which period the settler may not be absent for more than six months in any one year without forfeiting the entry.

APPLICATION FOR PATENT.

may be made before the local agent, or any homestead inspector.

Six Months' Notice Must be Given in Writing to the Commissioner of Dominion Lands, a Settler of his Intention Prior to Making Application for Patent.

PRE-EMPTIONS are by law abolished, and may not be entered for after last January, 1890. A Second Homestead may be taken by anyone who has performed the duties to entitle him to a certificate of recommendation for the first homestead on or prior to the second day of June, 1890.

Forfeited or cancelled Pre-Emptions may be taken as second homesteads.

All communications having reference to lands under control of the Dominion Government, lying between the eastern boundary of Manitoba and the Pacific Coast should be addressed to:

H. H. SMITH, Commissioner of Dominion Lands, Winnipeg.
